Dear Friends,

Following the request for a meeting of all stakeholders by The Friends of Yeatman Hospital to review the withdrawal of some out-patient clinics from The Yeatman Hospital the Chief Executives of both Dorset HealthCare NHS Trust and Yeovil District Hospital met with stakeholders last Friday (July 5, 2019) to establish clearer lines of communication between the stakeholders and the two NHS bodies.

The meeting agreed to establish a Strategic Review Group which would include all stakeholders to include representatives of, The Friends of Yeatman Hospital, hospital management, Sherborne PPGs, Dorset Council, Sherborne Town Council and both Dorset HealthCare NHS Trust and Yeovil District Hospital.

The purpose of this group is to continue the review process and set into place terms of reference for future dialogue. Dorset Council members confirmed it will conduct an external review on its own responsibilities.

Yours sincerely,

David
